Trainer: Stuart Booth

Stuart is deputy head of a Lancashire primary school. He is a Specialist Leader in Education for Mathematics and is passionate about ensuring that we, as teachers, develop the belief that there are no limits to what pupils can achieve and he believes that it is our duty to instil this mindset in them. Stuart believes that self-belief is the key to unlocking potential. However, realistically we are all going to fail at something. Therefore, the best thing that we can do for children... instead of teaching them to be successful ...is to teach them how to respond when they are not successful.
