

<p>In November 2020 we asked all our trainees</p> <p>How have you found teaching classes so far?</p>	
Amazing. I'm really really enjoying teaching and found it challenging at times but I have lots of support. I feel very confident with it.	Really enjoyed it overall, so more challenging than others.
I am thoroughly enjoying teaching the classes, both practical and theory. It increases my confidence in my ability to teach as well as my subject knowledge.	Enjoyed teaching the classes, struggled with planning
I have thoroughly enjoyed teaching. All my classes have welcomed me as their teacher and have responded really well to my lessons.	I enjoy the teaching although I am finding it hard to put the learning onto students rather than telling them all the information.
I have enjoyed all my time with my classes. The lack of feedback worries me because I don't want to get into bad habits.	I have loved my experience so far!
Very rewarding, I love it.	I have thoroughly enjoyed teaching! I have found the behaviour quite difficult to manage at times but I'm making progress. The children are delightful and just make my week a whole lot better.
Good	I've loved it!
It is great, I have ample support when needed and have learned a lot of new skills along the way. Teaching post 16 is wonderful, from planning to teaching and through to reflection I am really enjoying the process. I have a real passion for the subject and therefore feel confident in my delivery. I am building student teacher relationships and this makes a huge difference to both the teaching and the running of the classroom.	Brilliant
Good. My confidence is improving and I can see students progression.	Amazing the class I was in have made me feel so welcome and I have enjoyed teaching them and getting to know and work with them !!
I have really enjoyed my introduction to teaching. I have received a lot of support and guidance from my mentor.	Loved it! It has been challenging but I have had so much support from class teacher, mentor and Cate.
Can be challenging but mostly okay	I have really enjoyed teaching, some classes are more hard work than others but that I think that is normal.
I have enjoyed teaching classes so far and found that I have more confidence than I expected to so early on in lesson delivery. Although I have had a good start I know I have lots of areas to improve and I am determined to gain more skills throughout the placement as my experience increases. My main concern at	I really love teaching classes. It has definitely been a challenge but an enjoyable one.

the moment is the workload of planning and teaching lessons alongside attending training sessions and completing assignments to deadlines. I currently do not have very much time to rest i.e. working through weekends, but I am determined to do well.	
Behaviour has been fabulous. Sometimes the technology has been frustrating however I have enjoyed the learning curve for both face to face and online lessons. So far classes have been fun	I am really enjoying it and have learnt a tremendous amount
They have gone quite well - no huge issues and all staff are very supportive	Very rewarding
An interesting experience in dealing with more and less able classes	I have not yet taught a class in this placement. I have done duties and observed.
Very rewarding, I love it.	Enjoyable
I have enjoyed the increase to full one hour lessons. It is stressful but with time management and organisation, I am coping. The classes I have taught have been really friendly - it is a bit more difficult online but I am slowly adjusting.	I have felt confident teaching and have thoroughly enjoyed it. I have received positive feedback for most of my classes so far.
I have thoroughly enjoyed my first experiences of teaching full classes and couldn't have asked for better training so far.	Very enjoyable.
OK	Initially slightly intimidating given it was such a new experience but I now feel very settled and really enjoy teaching classes.
Good	Great, it's been really interesting getting to know the kids and teaching different year groups
I really enjoy teaching my classes so far and my mentor is very supportive in helping me develop my skills.	Enjoyed it immensely! Feeling very comfortable and enjoying the discussions with students
I have really enjoyed it. The students have been very welcoming and I feel I am learning a lot.	I have been really enjoying it
Challenging but very rewarding and very enjoyable	Good, slightly stressful but enjoyable
Amazing! I am really enjoying my placement and I am enjoying teaching classes. I have a very good relationship with all my classes which is evident and demonstrated within my lessons. I have found that I work better with lower ability classes but I think this is because of my nature and personality.	Really good!
Amazingly fun! Feeling more confident with every one!	I enjoy teaching classes, both btec and A Level. I've built a good relationship with both the students and other teaching staff.
Teaching so far has been a learning experience ! Exciting, stressful and engaging all at once !	I have been really enjoying it

<p>Some classes have been good but some have been challenging. It's challenging teaching mixed ability classes, they really are quite mixed.</p>	<p>I have loved teaching, now I have my own regular classes I can really see a where I'm doing well and how I need to change</p>
<p>Good, exciting and also challenging in some classes</p>	<p>It is dependent on the class. I have found it far more comfortable to teach year 7 classes than to teach year 9 classes. When I was taking over the lessons I was nervous for the first few lessons [although I did everything in my power to try and hide this to the pupils] but after a 3-4 lessons I have broadly managed to overcome these nerves [although if I am teaching a subject area that I have limited knowledge, I have found that I am a little more on edge].</p>
<p>Teaching has gone well and I have made a lot of progress through the placement. I have improved through my own CPD reading Teach Like A Champion and Running The Room. Front-loading instructions have helped hugely with the lower years and lower-ability students. Running The Room has helped me with scripting instructions ahead of time, allowing instructions to be clear and considered.</p>	<p>There is a lot of information to consider constantly and it can sometimes feel a little overwhelming although this is getting easier with each lesson I teach.</p>
<p>I've been really enjoying it. Some of my classes are a little bit challenging but it's good to have experience in teaching a variety of students and I'm learning a lot from each class I teach.</p>	<p>I have loved teaching, now I have my own regular classes I can really see a where I'm doing well and how I need to change</p>
<p>Ok</p>	<p>Some classes have been good but some have been challenging. It's challenging teaching mixed ability classes, they really are quite mixed.</p>
<p>Overall very good</p>	<p>Enjoyable</p>
