

The latest Education Endowment Fund (EEF) Report – you've heard about it – take some time to discuss and find out more

Introduction to EEF Report 'Improving Secondary Science'

Improving Secondary Science reviews the best available research to offer science teachers practical classroom suggestions.

Monday 10 December 2018

FREE to attend twilight session

4.00pm – 6.00pm

The Training Centre, OLCHS, Fulwood, PRESTON

The report uses the research evidence to show how some of the things you already do can be as effective as possible, as well as some ideas which may be new to your practice.

This session is aimed at all teachers of science in secondary schools and looks at the seven recommendations of the report:

- **Preconceptions** - BUILD on the ideas that pupils bring to the classroom
- **Self-regulation** - HELP pupils direct their own learning
- **Modelling** - USE models to support understanding
- **Memory** - SUPPORT pupils to retain and retrieve knowledge
- **Practical work** - USE practical work purposefully and as part of a learning sequence
- **Language of science** - DEVELOP scientific vocabulary and support pupils to read and write about science
- **Feedback** - USE structured feedback to move on pupils' thinking

Trainer: Phil Naylor

Phil is currently seconded from his latest senior leader role to head up the Teacher Development Trust's Blackpool Hub. He is the Assistant Director of Blackpool Research School, a Science SLE and currently studying for an MSc. Phil is also a Primary School Governor, a UEFA A Licence Football Coach and was a member of the EEF working party on the development of the Science guidance.
